

Appl. No. 10/708,796
Amdt. dated June 19, 2006
Reply to Office action of March 21, 2006

REMARKS/ARGUMENTS

This is a full and timely response to the non-final Office action of March 21, 2006.

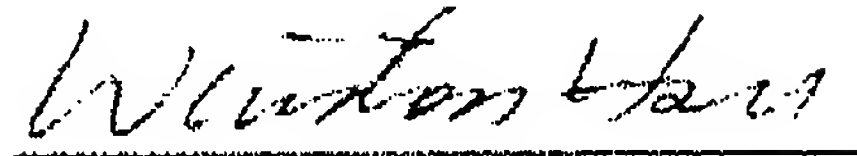

5 The title of the current application has been changed to that which was suggested by the Examiner to more clearly describe the invention. Reconsideration of the specification is respectfully requested.

10 Claims 1-3 and 5-13 have been rejected and dependent claim 4 has been allowed if rewritten appropriately. In this response, independent claims 1 and 6 have been amended to include allowed limitations of claim 4. Claims 3-4 have been cancelled. Amendments to claims 1 and 6 are fully supported by claims 3-4 as filed and Paragraph [0019] as published. Additionally, claim 8 has been slightly amended merely to clear up informalities introduced by amendments to claim 6. No new material has been introduced.

15 As the allowability of dependent claims ultimately depends upon the allowability of their respective base claims, reconsideration and allowance of all claims in the application is respectfully requested.
